

# The Art of Music Studio School of Music & Arts

## Parent & Student Reviews

"The Art of Music Studio" is by far the best music school I have ever been to. They have the most amazing teachers who are experienced at what they do. They make learning fun and I look forward to my classes every week. I have learned so much in a short amount of time. Summer music camps are a blast! " **Emily Adams**

**LEARNING WITH MY DAUGHTER!** *Taking a drum class along with my daughter has allowed us to spend quality time together.*

Our instructor, Judi, is skilled and profoundly talented in teaching others how to learn and appreciate music. One year down and many years to go. We are blessed to have found the Art of Music. **Kenya & Zakira Haugen**

**AFFORDABLE, HOMESCHOOL FRIENDLY CLASSES!** I am so pleased with my son's musical growth and progress after enrolling him in an Art of Music group drum class. As a **homeschool family**, we were glad to find a convenient option for him to gain musical experience during the day without taking up an evening of family time. **The classes are affordable, the teachers are top notch!** I highly recommend the Art of Music! **Angela Ward**

**WONDERFUL INSTRUCTORS!** After trying out 3 other music schools who would either say my son was too young to start, or had instructors who would not show up for classes, we were blessed to find The Art of Music Studio! My son has grown in both his technique and his love of music. **Wonderful instructors and supportive atmosphere!** **Claudia Lenz**

**Improved Grades! We love the "Art of Music Studio!"** "The Art of Music Studio" has helped Hannah with her journey for the love of music.

Being in a buddy class gives Hannah the comfort of friendship, but intimate enough to have one-on-one instruction when needed. Her study of the violin has actually raised her from a B student to a straight A student. **We give The Art of Music Studio an A+ " Stephanie Lapham**

**SUMMER CAMPS, GREAT FUN!** "We are so lucky to have found the Art of Music Studio!! **The summer camp is especially great & fun as the kids get to experience several instruments, drama, song writing, etc.** Judi is wonderful to

work with and very accommodating in scheduling lessons. They foster a supportive learning environment and encourage individual creativity. The music school has grown our oldest son's love of music, and we look forward to our younger son starting lessons next fall." **Kim & Dana Severson**

**HIGHLY RECOMMEND!** I am amazed at how much my son's music has progressed over the past three years. They coordinate classes to allow for teaching to match up between different instruments that he is working on. I would **highly recommend** this studio. I love y'all, **Shannon Bagwell**

**Studies show that Music causes Math and Science grades to improve, and develops the Creative Brain. Music uses both sides of your Brain at the SAME TIME!**

### WELL ROUNDED MUSIC EDUCATION!

I found Art of Music Studio five years ago in search of music lessons to add to my children's **homeschooling program**.

I am so blessed to have found such talented amazing teachers! My children had no prior music experience, so I was so impressed how far they have come. I was so encouraged that I decided to start taking piano lessons myself. They offer the

**most well rounded music education and experience** for just about any instrument or any level of expertise. We love it here, and highly recommend Art of Music Studio! **Windy Ybarra, Abby, Matthew & Joseph**
